# Safety Procedure Emergency

**This bit is important!**

Guestrooms are fitted with smoke detectors. Fire hose reels and fire extinguishers are also strategically located throughout the hotel & on the outside of the building.

Check the exits/fire escape plan: Coping with a hotel fire begins right after check-in. When you get to your room, take a few moments to investigate possible escape route.

Note the location of fire extinguishers and fire hoses.

Be sure you know how to use them. You may have to activate them in the dark or dense smoke.

If you discover a fire in your room, immediately report it to Reception/Manager on duty.

Only try to put the fire out if you're sure you can handle it. If you are at all in doubt, leave your room and close the door and proceed to the evacuation point in the South East corner of the car park.

**CALL POLICE, FIRE or AMBULANCE FOR ANY EMERGENCY ON 000 or Local Police on 02 4232 5599**
